

Sumptuous Sauna

Wondering how to make the sauna experience as luxurious as the rest of your spa? Sunlight Saunas introduces its **new line of wooden infrared saunas** in which clients can cozy up to a flat-screen TV

or a CD player with Blaupunkt speakers and an outlet for PCs or MP3 players while enjoying soothing infrared warmth. Exclusive Solocarbon technology used in the sauna's heating panels offers nearly perfect infrared emission in independent tests. Attractively

crafted in basswood and Western red cedar, the freestanding saunas are energy efficient and easily assembled. For more information call 877/292-0020 or visit www.sunlightsaunas.com.
