

EXTRAORDINARY LIVING FOR EXTRAORDINARY LIVES

LUXURY

LAS VEGAS

Feel the Burn

The most luxurious sauna on the market—the mPulse series from Sunlighten with its Bauhaus inspired design has a Blaupunkt stereo system, a LCD touchscreen interface, a CD/DVD player and ergonomic floating benches. The mPulse is the world's first sauna to include a biofeedback monitor programmed to wirelessly send heart rate, calories burned, and core body temperature data into a wellness website for personal use. A 30-minute infrared sauna session in a Sunlighten mPulse can burn upwards of 600 calories.
