

WOODEN SAUNA LINE

Sunlight Saunas

While your friends and family are busy getting the blankets out of storage for winter, you're sweating it up in the comfort of your new sauna. Ooh—feel the burn! These units use infrared light, which actually provides cardiovascular benefits such as lower blood pressure, blood sugar, cholesterol and more. And to get your blood really pumping, you can customize the unit too. Add-ons such as Blaupunkt speakers, a flat-screen TV and an MP3 circuit can tie in your PC, iPod or other MP3 player. In other words, be prepared to prune up your fingers and pretty much everything else.
