Lifetime on cabinetry, electrical and heaters. Outside USA and Canada please check with your local Sunlighten representative.

ELECTRICALLY CERTIFIED

mPulse Conquer Panels

For seamless craftsmanship, each wall of the Conquer consists of one large wooden panel:

- Roof & Floor Panels
70.6"x47.6"x2.75" thick (see diagram)
- Back & Front Panels
69.5"x72.1"x2.75" thick (see diagram)
- Side Panels 45.1"x72.1"x2.75" thick

Fitting into your home:

Because of the large panel size, it is important to ensure there is enough space through the doors and pathways to the sauna's location in your home. Standard doors in the US are 30" to 36" wide, and 6' to 8' tall. Please measure any doorway or hallway needed prior to purchase.

Front Wall

Roof

If you read the infrared sauna reviews, you know that the cONQUER sauna system from Sunlighten is a winning combination of highest-quality sauna components and high-technology that addresses comfort, wellness, and whole body needs in your home or office. This unique sauna heating system addresses a variety of research-backed health benefits that includes detoxification, weight loss, pain relief, and high blood pressure. Also, our FSC-certified wood composition, bamboo heater covers, and energy efficiency make the cONQUER sauna one of the greenest saunas on the market!
