Lifetime on cabinetry, electrical and heaters. Outside USA and Canada please check with your local Sunlighten representative.

ELECTRICALLY CERTIFIED

mPulse Discover Panels

The DISCOVER is our second largest sauna model. For seamless craftsmanship, each wall consists of one large wooden panel:

- Roof & Floor Panels
70.6"x70.6"x2.75" thick (see diagram)
- Back & Front Panels
69.5"x72.1"x2.75" thick (see diagram)
- Side Panels 68.1"x72.1"x2.75" thick

Fitting into your home:

Because of the large panel size, it is important to ensure there is enough space through the doors and pathways to the sauna's location in your home. Standard doors in the US are 30" to 36" wide, and 6' to 8' tall. Please measure any doorway or hallway needed prior to purchase.

Front Wall

Roof

The Sunlighten DISCOVER infrared sauna will let you and up to three other family members or friends discover the health benefits of an infrared sauna that is both beautifully-designed and built with unmatched quality and intelligent technology that addresses comfort, style, and whole body needs. With FSC-certified wood (in Canadian cedar, hypo-allergenic basswood or teak), bamboo heater covers, and built with great energy efficiency, the DISCOVER is one of the most eco-friendly saunas on the market!
