mPulse® bELIEVE Sauna Panels

For seamless craftsmanship, each wall of the bELIEVE consists of one large wooden panel:

- Roof & Floor Panels
51.7" x 47.6" x 2.75" thick (see diagram)
- Back & Front Panels
50.6" x 72.1" x 2.75" thick (see diagram)
- Side Panels
46.5" x 72.1" x 2.75" thick

NOTE: All eucalyptus models have a solid floor; no floor heaters included.

Fitting into your home:

Because of the large panel size, it is important to ensure there is enough space through the doors and pathways to the sauna's location in your home. Standard doors in the US are 30" to 36" wide, and 6' to 8' tall. Please measure any doorway or hallway needed prior to purchase

The mPulse Series is the only sauna series to offer near, mid & far infrared technology for targeted results. Featuring a 10.1" Android control panel, 6 wellness programs, highest quality eco-friendly wood options (hypoallergenic basswood, western Canadian cedar and eucalyptus), Magne-Seal assembly and ergonomic, floating benches, the mPulse is the smartest sauna on the planet.
