Signature® IV Sauna Panels

For seamless craftsmanship, each wall of the Signature consists of one large wooden panel:

- Roof & Floor Panels
64.5" x 48.1" x 3" thick (see diagram)
- Back & Front Panels
57.4" x 71" x 3" thick (see diagram)
- Side Panels
44.6" x 71" x 2.6" thick

Fitting into your space:

Because of the large panel size, it is important to ensure there is enough space through the doors and pathways to the sauna's location in your home. Standard doors in the US are 30" to 36" wide, and 6' to 8' tall. Please measure any doorway or hallway needed prior to purchase
